Development Projects

Roots Cleaning

Freelance Project (2025) URL: rootscleaning.pro

- Web application designed to improve the workflow and online presence for a small cleaning business.
- Client wanted to streamline the booking process by allowing a customer to fully book online. Integrated the BookingKoala scheduling platform to achieve that goal.

Regenerative Landscape and Garden

Freelance Project (2024) URL: regenerativelandscapeclt.com

- Responsive website built for a local landscaping business to support the client's online presence.
- Integrated EmailJS to automate customer inquiry submissions through a contact form.

Experience

Freelance Web Developer

Self Employed

Charlotte, NC

Jun 2024 - Present

- Designed and developed custom responsive websites using HTML, CSS, JavaScript, and React and more.
- Managed deployment processes, updates, and ongoing site maintenance.
- Collaborated with clients to translate business needs into technical solutions.

Sales Agent & Enrollment Specialist

SelectQuote

Remote

Jul 2020 – Apr 2022 · Aug 2024 – Present

- Conducted needs analysis to guide plan selection, improving alignment between customer needs and policies.
- Managed high-volume client interactions averaging 5–6 daily enrollments and consistently exceeding performance benchmarks during peak periods.
